# ANNUAL APPEAL

## 2024

**NYACK  LIBRARY**

**Dear Library Supporters,**

**Thank you all for everything you do. It helps sustain us in our mission to be Nyack's cultural, intellectual, and recreational hub. The last year has been filled with staff accomplishments, and I'd love to highlight a few. We've purchased new Mac Minis for the Children's Room and added programming on Saturday, including Spanish language storytelling. Teen programming and outreach to Nyack schools continue to grow, and students fill the Library during programs and to study. Attendance at adult programs has been climbing after the pandemic. Our slate of film, music, and author events have been well received, and our programming department is working hard to continue to offer stimulating programs for our diverse community. The staff is developing an appealing and wide-ranging collection of books, music, and film in physical and digital formats, and we are always excited to share our love for our favorite new book or movie. We don't take for granted our community of patrons. We seek input on our collections and programs to help grow that community. All are welcome.**

**The library infrastructure is being addressed by securing State funding to replace aging furnaces with more efficient heat pumps. However, that project isn't the only one we are working towards. The Library would like to add seating in the Carnegie Room, among other building improvement projects. Consider donating today towards our effort to improve your experience in our beautiful building.**

**-Eric McCarthy, Library Director**

**"Friday Night Film School, "Best program I've ever been to at the library!"**

**"I sing the songs from Mother Goose at home all the time!"**

**"I can be myself in the Teen Room."**

**"We love the Carnegie Concert Series."**

**"I am extremely happy with the outstanding library tech services I have received from Nyack Library."**

**"If you haven't been to the library ..it is a special place and has many wonderful things to offer."**
